Objective

Front-End Developer (React.js) seeking an internship to apply skills in building scalable, accessible, and high-performance web applications while continuously learning and improving in software engineering fundamentals.

Technical Skills

Languages & Frameworks: HTML, CSS, JavaScript, TypeScript, React.js

Styling: Tailwind CSS, Bootstrap CSS

Workflow & Tools: Git, GitHub, Responsive Design, Component Architecture

Currently Learning

SOLID Principles, Design Patterns , Data Structures & Algorithms, Figma

Work Experience

- Self-Training Front-End Developer** – May 2024 – Present • Practiced building responsive web apps using React.js, TypeScript, Tailwind CSS, and Bootstrap. • Optimized performance with techniques like code-splitting and lazy loading, improving Lighthouse performance scores by 30%+, leading to faster load times and smoother user experience.
- Enhanced accessibility using semantic HTML and ARIA roles, aligning with WCAG guidelines and improving usability for all users.
 - Developed reusable components to practice scalability and clean architecture.
 - Simulated real-world workflows from requirement gathering to delivering pixel-perfect UIs.
 - Applied version control best practices using Git & GitHub.
 - Focused on simulating real-world scenarios to be internship-ready.

Projects

Portfolio Website – [Live Demo](#): Showcased personal projects and front-end skills. Tools: HTML, CSS, JavaScript

McDonald's Web App – [Live Demo](#): Implemented advanced state management, routing, and SEO optimization with reusable UI components, demonstrating ability to build complex and scalable applications. Tools: HTML, JavaScript, React.js, Tailwind CSS, React Router, Context API, Helmet

TechNet Store Web App – [Live Demo](#): Designed and built a responsive e-commerce UI with focus on user experience, simulating real-world e-commerce scenarios. Tools: HTML, CSS, JavaScript

Password Generator App – [Live Demo](#): Created a utility app for generating secure random passwords, improving awareness of web security basics.

Tools: HTML, CSS, JavaScript

Soft Skills

Problem Solving, Self Learner, Ambitious, Critical Thinking, Communication Skills, Time Management, Team Collaboration, Attention to Detail

Education

Bachelor of Science in Agricultural Engineering – Kafr El-Sheikh University, 2023

Languages

Arabic – Native

English – Intermediate (B1)
