PROFESSIONAL SUMMARY

Frontend Developer with hands-on production experience building responsive, accessible, and performant web and mobile applications. Currently working at Smicolon on real-world products, including the company website and the Guardix platform (web + React Native mobile). Experienced with both React for web and React Native for cross-platform mobile development, with additional self-built mobile projects using Expo. Strong focus on clean component architecture, performance optimization, and pixel-perfect UI implementation from Figma designs. Passionate about software engineering fundamentals and continuously growing as an engineer.

WORK EXPERIENCE

Frontend Developer | Smicolon

Oct 2025 - Present

- Building and maintaining production frontend features across multiple company products, including the marketing website (smicolon.com) and the Guardix platform.
- Implemented React Native mobile UI screens for the Guardix mobile app, translating Figma designs into pixel-perfect, responsive interfaces.
- Developed and shipped frontend features for the Guardix web platform using React, TypeScript, and Tailwind CSS.
- Contributed to the Smicolon multilingual marketing website (English + German), working on UI components, layout, and content rendering.
- Applied performance best practices including code-splitting, lazy loading, and component memoization to improve load times and runtime efficiency.
- Followed strict TypeScript conventions and reusable component patterns to maintain code quality across the codebase.
- Collaborated with designers and backend engineers through Git/GitHub workflows, PR reviews, and structured task management.

Self-Training Frontend Developer | Independent Practice

May 2024 - Sep 2025

- Built responsive web applications using React.js, TypeScript, Tailwind CSS, and Bootstrap to prepare for professional frontend work.
- Improved Lighthouse performance scores by 30%+ through code-splitting, lazy loading, and asset optimization.
- Enhanced accessibility using semantic HTML and ARIA roles, aligning with WCAG guidelines.
- Practiced clean component architecture, version control, and end-to-end workflows from requirements to delivery.

TECHNICAL SKILLS

- **Languages:** HTML5, CSS3, JavaScript (ES6+), TypeScript
- **Frameworks & Libraries:** React.js, React Native, Next.js, Expo
- **Styling:** Tailwind CSS, Bootstrap, Responsive Design
- **State & Routing:** React Router, Context API, React Helmet
- **Tools & Workflow:** Git, GitHub, Figma, Component Architecture, Performance Optimization
- **Accessibility:** Semantic HTML, ARIA roles, WCAG guidelines

PROJECTS

Guardix Mobile App - Production - React Native

Implemented UI screens from Figma designs for a mobile application, focusing on responsive layouts, smooth interactions, and visual consistency across iOS and Android.

Stack: React Native, TypeScript, Figma

Guardix Web Platform - Production - React

Contributed to the frontend of the Guardix web platform, building reusable UI components and shipping user-facing features.

Stack: React, TypeScript, Tailwind CSS

Smicolon Marketing Website - Production - smicolon.com

Worked on the multilingual (EN + DE) marketing website, contributing to UI components, content sections, and responsive layouts across the public site.

Stack: Next.js, React, TypeScript, Tailwind CSS

NFT Marketplace App - Personal Project - React Native

Built a mobile NFT marketplace application using Expo and TypeScript, exploring cross-platform mobile development outside of work. Focused on smooth UI interactions and clean component structure.

Stack: React Native, Expo, TypeScript

McDonald's Web App - Personal Project

Built a web app with advanced state management, routing, and SEO optimization, demonstrating scalable application architecture.

Stack: React.js, Tailwind CSS, React Router, Context API, React Helmet

TechNet Store - Personal Project

Designed and built a responsive e-commerce UI with focus on user experience and real-world e-commerce flows.

Stack: HTML, CSS, JavaScript

Portfolio Website - Personal Project

Personal portfolio showcasing projects and frontend skills.

Stack: HTML, CSS, JavaScript

EDUCATION

Bachelor of Science in Agricultural Engineering

Kafr El-Sheikh University | 2023

CURRENTLY LEARNING

SOLID Principles, Design Patterns, Data Structures & Algorithms, Advanced Figma

SOFT SKILLS

Problem Solving, Self-Learner, Critical Thinking, Communication, Time Management, Team Collaboration, Attention to Detail

LANGUAGES

Arabic - Native

English - Intermediate (B1)
